

Plastics in Packaging

Readership 2012

Plastics in Packaging is the only international magazine to focus exclusively on the plastics packaging industry. Its coverage of news, analysis, features, comment and in-depth reports has established it as a trusted source of timely information.

With a circulation of over 6,000 and an estimated worldwide readership in excess of 14,000 technical personnel, executives and decision makers, *Plastics in Packaging* is an ideal publication for advertisers targeting companies that research, manufacture and use plastics packaging.

Selling products or services through advertising in *Plastics in Packaging* is a certain and easy way of communicating with an exclusive audience of plastics packaging professionals.
